### WOMEN AND BABIES.

## Pe-ru-na as a Family Medicine for Old and Young.

From Babyhood to Motherhood.

MRS. E. E. THOMAS.

A mother with babe in arms is an object sacred in theology, poetry and practical life. In no other item of faith do all men so nearly agree. All respect, if not adore, a mother and babe. Nationality, creed, color and conventionality-all give place to the affection which every well balanced mind feels toward the sanctity of honest maternity. A wife without a baby is to be pitied. A wife with a healthy baby is congratulated by every one. Catarrh of the pelvic organs is the most common cause of sterility. Mrs. E. E. Thomas, Alpha, Mo., writes: "I had given up all hope of ever getting well. I had tried so much medicine. My neighbors thought I was nearly dead with consumption. I commenced taking Pe-ru-na according to

directions. That was two years ago. A year ago last Novemdla of the baffled few ber I gave birth to a 10-pound baby boy, who is well and hearty; and I am doing my own housework. I can never give Pe-ru-na too great praise." Dr. Hartman is the author of a book on women's diseases and their proper treatment, called "Health and Beauty." The book is of priceless value to women who suffer, being the straightforward and plain advice of a physician who has made these diseases a specialty for years. The book will be sent free to any address.
